## Destitute Family At Anderson Mill Needs Assistance

FATHER, MOTHER AND FOUR  
CHILDREN STRICKEN  
WITH TYPHOID

DEPEND ENTIRELY  
UPON CHARITY

Clothing, Food and Money to  
Pay for Medicine Needed  
At Once.

In the city of Anderson there is a family in which six members are very ill with typhoid fever. They are in a destitute state and need help, need help urgently and immediately.

Dr. Herbert Harris has been attending the family for some time. He stated to a representative of the intelligence that there was one other child taken ill at noon today, bringing the total to six cases of fever in one family.

The father and mother of this family were taken ill several weeks ago, and there being but a family of children, the children were frightened and demoralized by the illness of their parents. The neighbors have been providing for the unfortunate members of the family until now, and they can hardly be asked to do anything more. Of course, the neighbors are willing and have done, and still will do all in their power to assist the family, but some public spirited person may feel as if this case deserves attention and may be able to render some assistance. After the parents were ill for some time, no doctor was called, but the two were cared for by the other members of the family as best they could, but when three other members of the family were attacked, a physician was called. This left one little boy of 14 years of age, the sole support of the family of six and he was too young to do much work, and not able to care for his parents and his three sisters. Today at noon, he was taken ill and the physician attending the case states that he has a case of typhoid fever, similar to the rest of the family.

The family is named Partrian, and lives at No. 31 G. Street, Anderson mill. They are absolutely helpless and are dependent on the charity of Anderson for aid. These people derive and need the help of the town. They have no food, no fuel, scant clothing, and no medicine. The medicine has been supplied by the drug store on the mill hill, and food has been furnished by the neighbors until now. Now they have absolutely nothing and are all unable to work. The father and mother are now convalescent, but it will be several weeks before either will be able to work. This leaves the family penniless, without food, fuel or clothing, sick and unable to help themselves.

Almost anything that can be given to this family will be appreciated. It is a worthy case and the people certainly need the food urgently. There is danger of actual starvation unless relief is given.

Anderson has seen such cases before this. During the winter months of last year destitution in Anderson was not an uncommon thing, and it was common to such an extent that a relief committee was formed. Now with only one family who are actually in need of clothing and food to sustain life, there is no doubt as to the people of this city coming to their aid. The family are well known in the mill and are good, honest hard working people. They need help quickly. Today is the time, and if anyone can help them, let them see what they may to this office and provisions will be made to have it carried to the family. Money, clothing, fuel, and food. Food is most urgently needed.

Clothing suitable for three girls, ages from 16 to 19 years and a boy about 14, or clothing for the father and mother can be used to good advantage. Money necessary to provide medicine for the sick.

### MANY BULGARIANS HAVE ENLISTED IN BRITISH ARMY

London, Oct. 29.—(Associated Press Correspondence.)—With war between England and Bulgaria, one may see in London, the curious spectacle of Bulgarian citizens in British uniform. Some of them, in the light blue, hospital uniform which is worn by the wounded, have returned from fighting in Flanders, and others have just enlisted and are about to go to the front. Most of these Bulgarians have had an ardent admiration for England and have, without becoming naturalized, contrived to enlist in the Canadian force.

The Bulgarian colony in London is

"The men of the company want me to express the appreciation of the entire Anderson company to the city council for the appropriation of \$300 a year for an armory," said Mr. Paul Bradshaw, second lieutenant of the company yesterday afternoon.

The armory appropriation was formerly \$300 a year and some time ago, when some little trouble arose, this was cut in half. Now that better quarters have been secured, the appropriation has been restored to what it formerly was and by this raise, the militia is able to afford the new armory.

All of the men from the company wish to express their thanks to the mayor and the city council for their work in raising the appropriation and to others who assisted in having the appropriation raised.

### AUDIENCE DELIGHTED WITH "BARBARA WORTH"

POPULAR PLAY MADE DECID-  
ED HIT AT ANDERSON  
LAST NIGHT

### ALL PLAYERS GOOD

But Miss Gertrude Barker, as Bar-  
bara, Was Easily Favorite—  
Cast of Characters.

"Barbara Worth" was met with a wave of applause when she made her appearance before an Anderson audience. The show was presented at the Anderson last night and was a good one. It was played by a good strong company, each member of which just seemed to fit into his part as if it was written especially for him.

Gertrude Barker, as Barbara Worth was especially good. She was well received and judging from the applause, she was at once a favorite with the audience. The dry wit of Ernest Mack, as Pat Mooney made a great hit. Theodore Hardy, as Jefferson Worth was strong in his part, while Owen Coll, as William Holmes, grew into favor with the audience as it intended through the play. All members were excellent actors and the play was enjoyed.

Scenic effects in the Prologue, were of the best ever shown here. The scenes on the desert, with the sand sitting down on the stage was one of the best staged scenes ever shown in Anderson.

Following are the characters of the play:

### AT THE THEATRES

#### "A PAIR OF SIXES"

"A Pair of Sixes," which comes to the Anderson for only one performance, tells the funniest story imaginable and it must be seen to be appreciated. Never in the annals of comedy has action and dialogue so completely satisfied as in "A Pair of Sixes." In deed so close is their relation that the witty repartees and clever sallies have the appearance of spontaneity, so quick fire is it. The funeral will be held at the home this afternoon.

### RUSSIAN FINANCE MINISTER EXPLAINS ATTITUDE ON JEWS

London, Oct. 29.—(Associated Press Correspondence.)—During his recent visit in London Mr. Bark, the Russian minister of finance, gave a sympathetic audience to W. A. Appleton, honorary president of the Workers' League for Jewish Emancipation, who asked that the Jews in Russia be accorded the rights of citizens when they perform the duties of citizens.

In reply, Mr. Bark said an attempt to pass laws conferring additional rights on the Jews would have aroused controversy, and perhaps hostility among the Russian people, so that the Russian government had taken the matter in its own hands and conferred liberties and privileges by administrative action. The government is so acting proceeded on the assumption that closer contact with the Russians would break down prejudices and clear the way for greater liberties. Jews are now allowed to settle down and live among the rest of the people.
